

# MCI MASTER COMM INTERFACE

## OVERVIEW

Single Channel RS-232 to RS-485 Converter for Master or Sub communications. This module provides the RS-232 Tx and Rx of the DB-25 connector also on a terminal block for ease of use. Onboard jumpers cross TX and RX for connections to different equipment

- RS-232 to RS-485 Converter
- RS-232 Input via Terminal Block or DB25 female
- RS-485 Output via Terminal Block
- 12VDC Power by Controller
- Over Voltage Protection
- UL 294 / UL 1076
- Protocol Independent
- Status LEDs

### Inputs

1 - RS-232 via Terminal Block or DB25 female

### Size

3"W x 2"H x .75"D

### Power Requirements

13.5VDC @ 30ma

### Outputs

1 - RS-485 Output / 4 Wire Terminal Block

### Weight

2 oz.

### Warranty

Limited 2 Years
